VOL LXVI

No. 3

JULY 2021

**FROM THE PRESIDENT'S DESK**

It has been almost 3 months since we started face-to-face bridge at the bridge center and we are making progress. As I write this, we still have just the 2 games per week we had in early May, but they have been growing steadily. Last Friday was 10 ½ tables. Even better, more games will be starting very soon.

Thursday (7/29) morning will see a new 0-1250 masterpoint game at 11:00. August 5 the 8 is enough evening Swiss on the 1st, 3rd and 5th Thursday evenings resumes. August 7 Supervised Play at 9:30 and Open Game at 1:00 restart Early September will see Deschappelles restart on Monday morning and the Wednesday evening game restarts.

I have played in the Friday morning game several times and everything has gone smoothly. We continue to insist on all players being fully vaccinated which is very reassuring to me playing face-to-face. Come join us.

Join me in offering sincere thanks to Pam Campbell for getting us going. Others are involved too but Pam has been the irresistible force getting us going.

We missed out Flying Pig Regional in June because the ACBL was not ready to restart tournaments and we were not sure if enough people would show up. There is still some doubt in our District and Dayton will not be having their September regional and Louisville has cancelled their early November regional. AJ Stephani is going to make us pioneers by running a Regional in early October (3 – 7). It will be in the same hotel in Springdale but you will probably

not recognize it. The owners have done a complete makeover & it looks great. This tournament will run from Sunday through Thursday. We are also working on a Sectional in late October at the bridge center.

We will also have elections for the CBA Board in October. We will have a nominating committee to recruit candidates but feel free to throw your hat in the ring. Contact Lew Temples [lew@powderalloy.com](mailto:lew@powderalloy.com).

**Potter Orr**

President, Unit 124 Board of Directors

**Support Our Clubs & Tournaments**

Play **OFTEN**. Play **HEALTHY**. If you feel sick or have symptoms, **STAY HOME!**

## ONE STEP FORWARD

Having gotten our vaccinations and shucked our face masks, a growing number of friends and acquaintances are returning to the face-to-face games at the **Elsmere Lions Club (Northern Kentucky Bridge Center)** and the **Cincinnati Bridge Center**. Word on the street is that the **Anderson Bridge Club** has found appropriate space for their game, and will begin one day a week (Thursdays) in the not-too-distant future. More clubs are reawakening at the **CBC**. We can't wait. Check the Club Notes on page 6 for more details.

Lacking face-to-face tournaments for some 15+ months, it's no surprise that ACBL membership is facing steep decline. Management informed the Board of Governors on Monday July 19 that membership is **down 9%** versus a year ago from 161,275 to 146,799. Unit 124 is **down 9.1%** to 798 members. While management is working closely with Districts, Units, teachers and clubs to improve recruitment and strengthen member retention, we members can help encourage friends we know to renew their membership now. Every member returning improves chances for larger fun games.

More than 2300 ACBL sanctions (clubs) have renewed for 2021. This is **down some 500** from 2019. About 50% of face to face clubs have played at least one face-to-face game this year. Table count is about 30% from pre-covid levels.

These data prove there is no instant pudding when it comes to reopening face-to-face bridge. The one solution every member can contribute is to get out and play. No ride? Call a friend. No partner? Call a friend, the game director, or our membership chair, Mike Burns. Just do it!

While the decline in membership is concerning, the interim reliance on online play has kept the ACBL intact – key skilled employees remain, the organization is showing a strong profit, new leadership with up-to-date skills are in place, and the resources necessary to get tournaments back up and running are in place. Sectional Tournaments in our area begin in August. The first Major Regionals are in

late August/Early September (Palm Beach FL and Atlanta Georgia).

Don't forget that we (Unit 124) will run a special edition of the **Cincinnati Flying Pig Regional from October 3-7, 2021** (That's Sunday to Thursday). This special tournament gives us the only chance to play in a Regional Tournament in District 11 until June 2022! Be sure to make plans to attend now!

In addition, there are two major events in October of interest to our members. District 11 will conduct the North American Pairs District Finals on Saturday and Sunday October 16-17. The Cincinnati Spooktacular Sectional is scheduled to run October 28-30, 2021. Both are at the Cincinnati Bridge Center.

Closer to home our club games have grown to 7-11 tables May through July – a nice size but not at our past levels of participation. See the article later in this publication about what this means for area bridge.

The ACBL has been dilligently striving to move their data management capabilities from an outdated mainframe computer to the cloud. That work is nearly complete. In addition they have hired talent for data management and business analytics. They are preparing dashboards that will be very useful in supporting growth where it occurs, and avoiding spending where returns don't justify investment. We hope these insights will allow Districts and Units to focus their energy and effort to better effect.

One tool to help the reopening of tournaments is Online Pre-Registration. This should go live in August or September, in time for the Flying Pig Regional. Using this tool will allow members to help tournament organizers to prepare the best possible experience for the expected attendance. (Future capabilities will include travel help and links to hotels, etc.). As always, time brings change and change brings the opportunity for growth, both commercial and personal.

The ACBL is refreshing its Brand Image and changing familiar icons as we reach forward into the future. In addition we can expect a vastly improved ACBL website sometime in the Fall.

We celebrate major tournament success of 5 of our members in this issue!

We offer a detailed view of the new Cincinnati Bridge Center website. Our new website allows clubs at the CBC to post timely notices about their games, manage game schedules, and offer results (in addition to the ACBL LIVE4CLUBS website). This gives club owners direct control over communicating to you our members. The new website is on the same platform as the sites used by Anderson BC and NKBC, so the article in this issue applies to their site too!

As always I thank our members who take the time to offer their wit and wisdom in articles here for your enjoyment. Nothing would make them feel better than to hear a word of thanks from you. Let them know you appreciate their efforts.

Stay safe, get your vaccination, take no practice fines when it comes to your health!

Wishing You Good Bridge and Good Luck,

*Steve*

By Steve Moese, Unit Secretary

### Board Elections!

Now is the time for you to volunteer to run for the Unit Board of Directors. Three members will be completing their 3-year term. We always welcome new members who want to volunteer to make bridge in our area the best! First step is to complete the nomination process. Download the form at:

<http://www.cincybridge.com/Election%20Petition.htm>

and have 10 members in good standing sign the form. Submit the form to the Election Committee Chair Lewis Temples [lew@powderalloy.com](mailto:lew@powderalloy.com).

### Nominations must be received by October 1, 2021.

Further details will be provided on the Unit 124 website. The election will be held during the Spooktacular Sectional at the CBC at the end of October.

### Unit Finances

The Unit continues to lose money due lack of revenue. We can sustain these losses near term while face-to-face clubs and our players return. If we are unable to earn sufficient income to cover costs, changes will be necessary. For now we await the return of all the games at the Bridge center, and the players who made them so much fun before the pandemic. We hope to have sufficient attendance by OND 2021.

### Special Edition of the Flying Pig Regional

This is the only Regional Tournament in District 11 until June 2022! The 2021 Flying Pig Regional calendar of events runs from Sunday to Thursday. We start with two session pairs on Sunday. Monday and Thursday feature

**Swiss Teams.** We offer the four-session **Open Flying Pig Pairs Championship** starting Wednesday. We also offer **4 days of Gold Rush** events. There will be **only two sessions per day.** Sunday starts at 12:00 PM and 4:30 PM. Thereafter sessions start at 10 AM and 2:30 PM, leaving you free to enjoy the many restaurants and evening area attractions. Side series pairs offered if attendance warrants. Because of the pandemic, we will follow local health and ACBL regulations. For now, vaccinations are required to play. There will be no hospitality and food at the table will be discouraged. The Delta by Marriott Hotel has been fully and thoroughly renovated (you will NOT recognize the place!). The special bridge rate \$89 per night is a bargain. There is a new brew pub right next door. Restaurants for lunch and dinner abound.

Mark your calendar for **Oct 3-7** and plan to play every session. Success for this regional will show us all that

face-to-face bridge is alive and well in Southwest Ohio.

See the Flying Pig Tournament Page for details:  
<http://www.cincybridge.com/CincinnatiFlyingPigHomePage.html>

**D11 NAP Finals Oct 16-17, 2021**

This grass roots event qualifies top pairs for stipends and play in the 2022 Spring NABC in Reno Nevada. This 2-day event has Flight B players on Saturday and Flights A & C players on Sunday. You must have qualified in special NAP Qualification games either online or at clubs in District 11. You can check if you qualified at this link:

<http://bridgefinesse.com/NAP/11NAPQualifiers.html>

For the stipend schedule and FAQs see:

[http://www.district11bridge.com/District\\_11\\_NAP\\_FAQ.html](http://www.district11bridge.com/District_11_NAP_FAQ.html)

Here is the link to the flyer:

<https://web2.acbl.org/Tournaments/Ads/2021/10/2110711.pdf>

See you at the tables!

**PARTNERSHIPS!**

By Mike Burns

If you're looking for a partner for a single game, call the director of the game you want to play in - s/he's the first to know about others who are available for that game. You can find directors' names on the Bridge Clubs websites. Another great way to meet prospective partners is at lessons or during supervised play. Unsure about an appropriate game? Call me!

If you'd like a regular partner, give me a call or send an email telling me about your game and your interests. How many master points do you have? What system/conventions do you play? Are you a ferocious competitor or a more relaxed player? Which games are you available to play in, and when can you start? I'll do my best to find someone who's also looking for a standing game.

Mike Burns [rmikeburnsi@gmail.com](mailto:rmikeburnsi@gmail.com)

**AJ and Isaac Stephani** (along with their **Mr. 1700 and Friends Team**) won the NAOBC U5000 KO Teams! Here are some reflections by AJ on their win:

Like many of us, Isaac and I adjusted to online bridge in the COVID era reluctantly but thankfully. We both strongly prefer the benefits of face-to-face play, but the proliferation of privately run online Knockouts gave us an opportunity to play against teams from around the world. We didn't have much success until the 2021 Summer NAOBC 0-5000 Knockout Teams, which we were thrilled to win with friends **Eric Gittleman, Paul Holmes, Richard Franklin, and David Venetianer**.

It's a triple gift to spend time with your son, share a game you love, and enjoy a win!

Despite what is probably the most boneheaded declarer play I've made in years, we played well throughout the 4-day event. Here are some interesting hands from the event.

Here's a defense I found against 4S. I'm North, Isaac is South

Optimum: EW 6N; -1440 LoTT: 17-16 = 1		♠ K 6 5 3	W	N	E	S

Isaac led a diamond, and after taking his top 2 diamonds, declarer ruffed his losing diamond in dummy. He then made a strange-looking play of a trump to his Ace, which gave us a chance. He floated his ♥J, which I trumped, and I needed to find 3 more tricks. At this point, declarer can still make the hand against any defense, but it's always a good idea to find a way to give the declarer a chance to go wrong. I found the play of leading the ♣Q from Qxx, and declarer can still make the hand at this point by ducking. However, he won with his Ace and played another spade. I won this with the ♠K, crossed to Isaac with a small club, and got a second heart ruff to beat the contract -- a nice pickup of 12 IMPs when our teammates made the same contract.

Even though part scores are less important at IMPs, careful play can bring in nice gains. Here's a hand that Isaac played really well:

Optimum: NS 1S+2; +140 LoTT: 16-16 = 0		♠ A Q 10 5	W	N	E	S																				
		♥ A J 5	P	1♦	P	1♠																				
		♦ K 10 9 4 3	P	2♣	P	P																				
		♣ 2	P																							
		♠ J 9 8 3	<table border="1"> <tr><td colspan="5">16</td></tr> <tr><td colspan="5">NT</td></tr> <tr><td colspan="5">NT</td></tr> <tr><td colspan="5">NT</td></tr> </table>				16					NT					NT					NT

		♦ Q 8																								
		♣ K Q 8 3																								
12		14																								
		4																								
10																										

Play it here: <https://tinyurl.com/ygqvuyay>

I had a 2 1/2 spade raise. but Isaac and I play an unbalanced 1♦ opening, so he knew I had shortness in clubs or hearts. He guessed well to stay low, as 4♣ went down 3 at the other table. Playing in 2♠ on a low heart lead, Isaac ducked the opening lead. This is the correct technical play, as it would be if Isaac had Tx(x) or even 9x(x). However, even when you don't have this holding, your RHO doesn't know that and will often go wrong by playing his honor. I was surprised to see the West make the mistake of not finessing against the dummy.

Isaac covered the club return with his ♣K, losing to the Ace. He finessed the heart continuation with his ♥J and discovered the bad trump split. He knocked out the ♦A with his ♦Q, won the third heart, played

### By Cordell Coy

NKBC is adopting an annual membership model. The purpose is to distinguish voting members from other players. Clearly defining our membership also allows NKBC to offer exclusive benefits to members. This means that the club will charge an annual membership fee and in exchange members will acquire certain privileges.

For this year, August through December, the membership fee will be \$5 (\$1/month). NKBC members will have the following exclusive privileges:

- members may be elected to the NKBC board of directors
- members may vote on all issues brought to the membership by the Board of Directors (including the annual Board of Directors election)
- members receive a \$1 discount on all games
- members may purchase free game coupons for \$6 each (typically used for gifts)
- members may purchase further discounted promotions when available
- NKBC remains an open club. Anyone may play at NKBC. Game fees remain at \$7.

Please consider becoming a member at NKBC. If you have questions, please contact Cordell.

We have been playing since early May and our games continue to grow! We will be adding many favorites to our schedule in August including:

- Thursday Evening 8 is Enough Swiss
- Saturday Morning Supervised Play
- Saturday Open Pairs

**Deschappelles** will return the second Monday of September. **Reservations are required.** Contact Debbie Cummings at H: 859-331-0558 / C: 859-653-0408 or [dcummings@twc.com](mailto:dcummings@twc.com). **Ani Pandit** will start up his limited game on Wednesday Evenings in September too. John Altman will run a **Monday Evening Open and Limited game** in the near future – stay tuned to the CBC website for updates on all games and special events. **Supervised Play and 8 is Enough Swiss Teams** both return in early August.

**From Mike Burns** on opening day 2021:

Otto and I played as partners in Pam’s Friday Morning Open Pairs on the first Friday face-to-face game since the center opened. Sitting North was Dean Congbalay and his partner was Sheldon Kushner. To those uninitiated to our bridge club, Dean is unique. He is very personable and has a contagious laugh that let’s just say you know when he is in the room. This hand was the first bridge hand Dean played as declarer after many months.

After a routine auction to 4♥ by Dean and Sheldon, Otto and I were on defense. We took the first 4 tricks between us, Dean following suit. It was at this point Dean pointed out to the table that “It doesn’t look like we are going to make this one partner”. To which Sheldon deadpanned “Well you’ve sure misplayed it well so far”.

The table erupted in laughter. It was so good to be back.

Note to Otto: The devil is in the details.

Word on the street is that the Anderson BC is working to contract space for their games. Agreement awaits committee meetings by the end of August. Stay tuned for details and expected start date.

**A Smile?**

By Dean Congbalay  
[dcongbalay@comey.com](mailto:dcongbalay@comey.com)

He was just being nice. So, I smiled.

“Do you like Asian food?” the guy to my left asked me just before a recent bridge game.

“Excuse me?” I replied.

“Do you like Asian food?” he repeated.

I bit my tongue. I politely refrained from saying that the correct verbiage is “Oriental food.” I also silently wondered why he thought the only Asian person in the room would like “Asian” food — or why the query wasn’t going the other way.

“I do!” I said.

He was just being nice. So, I smiled.

“There’s a really good restaurant called Daruma,” he said.

I bit my tongue — again. He, of course, pronounced it DaROOma instead of the correct DARuma, but I let that go, too.

“I’ve been there!” I said. “You’re right. It’s good!”

It was about time to start the game.

He was just being nice. So, I smiled.

Sometimes, you just gotta smile, right?

Please see “The New Kid on the Block” p. 22 in this issue for much more detail about the features of the new website. Please note that this website is a product of BridgeWebs (England) and is the same as that used by Anderson BC and Northern Kentucky BC. We all work the same!

**Deschapelles, Cincinnati's women's-only sanctioned bridge club, returns to face-to-face play at the Bridge Center on Monday, September 13th at 11:00 AM.** We will be happy to see all our members again. We offer extra Masterpoints for face-to-face play. All players must show proof of vaccination for Covid and sign a waiver. Masks are not required, but recommended. No food, only coffee. Players can bring their own lunch for a short lunch break at ~12:00pm. **Reservations are required.** Contact Debbie Cummings at H: 859-331-0558 / C: 859-653-0408 or [dcummings@twc.com](mailto:dcummings@twc.com).

## Bidding Quiz - Problems

### Bob Jones Quizzes – Unit 124

Every Saturday morning, participants get an advanced copy of the Bob Jones quiz published Monday morning in the Cincinnati Enquirer. If you'd like to participate, please send an email to

Mike at [rmikeburnsi@gmail.com](mailto:rmikeburnsi@gmail.com). Feel free to send questions to any commenters. There is rarely one correct answer to bidding problems. You can see all past quizzes on the unit 124 website:

## Answers on p. 15

## The More Things Change

By Steve Moese

The ACBL has changed regulations affecting bidding and play. Here are links to the important documents:

**New Alert Procedures**

<https://web2.acbl.org/documentLibrary/play/AlertProcedures2.pdf>

**New Convention Charts**

[http://web2.acbl.org/documentLibrary/about/CONVENTIONCHARTS2\\_2020.pdf](http://web2.acbl.org/documentLibrary/about/CONVENTIONCHARTS2_2020.pdf)

**New Online Conditions of Contest**

<https://web2.acbl.org/documentLibrary/play/AppendixO.pdf>

One change that players might not be fully aware of yet is a **complete definition of hand strengths** and clear regulations about **improper use**.

From the new convention charts:

Definitions #1-4 below have specific meanings that may vary from commonly understood meanings or may not have previously been defined.

### 1. Hand strength:

- a. **“Weak”**: A hand that contains less than Near Average Strength.
- b. **“Near Average Strength”**: A hand that has at least 8 HCP or meets the “Rule of 17”.
- c. **“Average Strength”**: A hand that has at least 10 HCP or meets the “Rule of 19”.
- d. **“Strong”**: A hand that contains:
  - i. at least 15 HCP; or
  - ii. at least 14 HCP and meets the “Rule of 24”.
  - iii. at least 5 Control Points and is within one trick of game assuming suits break evenly among the other hands.
- e. **“Very Strong”**: A hand that contains:
  - i. at least 20 HCP; or
  - ii. at least 14 HCP and is within one trick of game assuming suits break evenly among the other hands.
  - iii. at least 5 Control Points and is within one trick of game assuming suits break evenly among the other hands.

### 2. “Natural”:

- a. Any opening bid, response, or overcall in a suit at the one-level showing 4 or more cards in the suit bid, except as provided in 2(f) and 2(g).
- b. Any opening bid at the two-level or higher showing 5 or more cards in the suit bid.
- c. Any response or rebid in a minor at the two-level or higher showing 3 or more cards in the suit bid
- d. Any response or rebid in a major at the two-level or higher showing 4 or more cards in the suit bid.
- e. Any suit overcall at any level showing 4 or more cards in the suit bid.

f. A 1C opening bid showing 3 or more clubs. This opening may also include exactly 4=4=3=2 shape.

g. A 1D opening bid, overcall, or response showing 3 or more diamonds.

h. A NT opening bid or overcall that contains no voids, no more than one singleton, which must be an ace, king, or queen, and that does not contain 10 or more cards in two suits combined.

i. A call is still Natural if it also shows distribution in another suit.

j. A pass, double, or redouble is Natural if it suggests the current contract as the final contract.

k. After the opening bid any bid is Natural if it suggests the contract bid as the final contract.

### 3. “Quasi-Natural”:

a. A minor suit bid that is either Natural or shows a pattern that meets the definition of a Natural NT opening.

b. Any opening bid at the two-level or higher showing 4 or more cards in the suit bid.

4. **“Purely Destructive Initial Action”**: An opening bid or an overcall that satisfies none of the following:

a. 4+ cards in a known suit.

b. 5+ cards in one of two possible suits.

c. 5+-4+ distribution in any two suits.

d. An either/or combination of any two of a, b, or c (which may be the same option twice).

e. A Three-suited hand.

f. At least Average strength.

g. Any Natural or Quasi-Natural opening bid.

Note the term “Rule of 17” – The regulations define the Rule of N as the sum of the HCP and number of cards in the two longest suits. That sum must equal or exceed N to satisfy the rule.

So, a hand with 10 cards in two suits and 9 HCP satisfies the rule of 19 and any lower number rule.

How does this affect the bridge we play? Take everyone’s favorite 2♣ Strong Artificial Opening Bid. In the Past the ACBL was quite lenient about what could be opened 2♣. They left it to the judgment of the players. The only requirement was that the hand

not resemble a preempt more than an opening bid. Even this caveat was (unacceptably) subjective.

Now the ACBL Regulations are enforced for all ACBL Tournaments. Clubs are urged but not required to use them. (Clubs are their own arbiters of bidding regulations, but may not violated Bridge Laws).

The ACBL recommends using the Basic+ Chart for NLM games. This chart allows any 2-level opening bid that is very strong. Therefore the 2♣ opening must meet the Very Strong criteria if your club adopts these regulations (most clubs do). This means 2♣ must show a hand that contains:

- i. at least 20 HCP; or
- ii. at least 14 HCP and is within one trick of game assuming suits break evenly among the other hands.
- iii. at least 5 Control Points and is within one trick of game assuming suits break evenly among the other hands.

*(Control Points: An Ace = 2 and a King = 1).*

This means that hands like

**A AQJ10987654 X X**

cannot legally open 2♣ in any game under the Basic+ chart. This hand has only three losers. There are only 4 control points and 11 HCP. None of the three criteria above for a very strong hand are met. In the past, the ACBL would allow this hand because two Aces do not a preempt make. Under the Open+ Chart, an alert and an explanation that 2♣ might be one trick short of game would be necessary.

Likewise natural opening bids that meet the rule of 19 are legal even if they are weaker than you are used to bidding. In fact, the Basic+ Chart allows opening Near Average opening hands (Rule of 17).

Notice **Natural** and **Quasi-natural** are specifically defined. So are "**Purely Destructive Actions**", agreement to which is prohibited by all charts. Psyches are legal. However, psyches must surprise partner as much as the opponents. We are not allowed to have an agreement about when to psych. You guessed it – **Artificial** is any bid that is not Natural or Quasi Natural.

## The Theory of Total Tricks: Part VIII – Evaluating Shortness

By Steve Bloom June 13, 2013

The opponents have bid up to four spades, in what you suspect is a ten-card trump fit, where you hold a void. How valuable is that void? What is it really worth?

This, like all bidding questions, is a matter of probability, of expected values. Let me approach this from several directions:

1. How many high card points will partner have wasted in spades?

This is pretty easy. There are ten spade high card points, and partner seems to hold three spades, so partner will hold, on average, 3/13 of these highs, or a little over two points in spades. We can refine this estimate if we know more about the hand, for example:

2. Suppose partner has shown weak-notrump values in the auction, and we hold ten high card points along with our spade void. How much wastage will partner have?

This is more complex, but the calculations are similar. Again, if we suspect that partner has only three spades, then a typical high card point in his hand will be in spades roughly 3/13 of the time. However, since we hold ten points outside of spades, there are only 20 good points available, and ten points of spade wastage. On a typical hand, an honor will be in spades, as opposed to another suit, 1/4 of the time, but here, since more of the non-spade points have been accounted for, a point in partner's hand is 4/3 as likely to be in spades as in any other suit. Combining these estimates, partner rates to have around 4/13 of his 12-14 HCP located in spades, so around four wasted points.

If we are considering bidding on to the five level, we can anticipate roughly 9 working points in dummy, and should bid accordingly.

3. How does our spade void affect the total trick estimate?

That, of course, is the theme of these articles, so I will answer that question in full detail. First off, let's determine how many defensive tricks, in spades, partner will contribute. I will assume that our hand has been active enough in the bidding to pinpoint which hand, if any, would hold a void. Thus, declarer will never mis guess the queen holding something like

KJxxx A10xxx

nor will declarer go wrong when partner holds something like AJx. However, we won't allow declarer to play double dummy. When partner holds, say, QJx, that will score a trick, even when the ace and king are behind him. In Table 5, below, I have listed every possible three-card holding for partner that might win a trump trick:

**Table 5 – Expected (Wasted) Tricks from 3 Cards**

Holding	Expected Tricks	Number of Cases	Total
AKQ	3	1	3
AKJ	2 ½	1	2 ½
AK10	2 ¼	1	2 ¼
AKx	2	8	16
AQJ	2 ½	1	2 ½
AQ10	2	1	2
AQ9	1 5/8	1	1 5/8
AQx	1 ½	7	10 ½
AJ10	1 ¾	1	1 ¾
AJ9	1 ½	1	1 ½
AJx	1 ¼	7	8 ¾
Axx	1	36	36
KQJ	2	1	2
KQ10	1 ¾	1	1 ¾
KQ9	1 5/8	1	1 5/8
KQx	1 ½	7	10 ½
KJ10	1 ½	1	1 ½

KJ9	1 3/8	1	1 3/8
KJx	1 ¼	7	8 ¾
K109	7/8	1	7/8
K10x	5/8	7	4 3/8
Kxx	½	28	14
QJx	1	9	9
Q10x	5/8	8	5
Qxx	¼	28	7

These total to 156.125 winners. Since there are 286 ways that partner could be dealt three spades, these average out to .55 winners. Look back at Table 1 – when the opponents hold a solid ten card fit, they rate to cash, on average, .78 winners in that suit on defense. Since we hold a spade void, we know that they have no spade tricks to cash, so we start off .78 tricks ahead of the game. Deduct partner's wasted spade winners, and we are left with a plus of .23.

***Our spade void adds about a quarter of a trick to the total trick estimate.***

This is a pretty good general guideline – figure a plus adjustment of a ¼ of a trick to the total trick estimate for a void.

Next up, let's extend this analysis to the case when we hold a small singleton opposite three unknown cards. Making the appropriate modifications in Table 5 (the ace is no longer a wasted winner, and, since we hold a singleton, there is one less x in our case counting), partner will hold around .36 wasted winners opposite our singleton<sup>[1]</sup>. So, suppose the opponents have bid up to three hearts, in what rates to be a nine-card fit, and we are contemplating bidding on to three spades. If we hold a singleton heart, what is that worth? How does it affect our total trick estimate?

Looking back to Table 1, a nine-card solid fit will cash, on defense, 1.31 tricks. Our singleton lowers that to 1, so we gain .31 tricks, but give back .36 winners to wastage. This is essentially a wash. What we gain in losers we give back in wastage. In this case, there is no adjustment to the trick total, either up or down.

The same cannot be said when we hold a doubleton heart. Our own loser count has climbed from 1.31 to

2, with no compensation, so that doubleton heart puts us 0.69 total tricks below expectation. This explains the simulation results from last time. We have what I like to call the **Old School Rule**:

- **Add a quarter of a trick to the total trick estimate for a void. Subtract off three-quarters of a trick if our side holds no singleton.**

All of this loser analysis applies to our other short-suit holding. The loser count drops with a void, and rises for flat shape, but complications arise when we convert losers to winners. Suppose the opponents have saved in four spades over our four-heart game, and we hold a singleton club. That shortness lowers our loser count, and increases the chance that we can make five hearts, *but, if we lead our singleton, it also greatly increases the potential penalty against four spades*. Bidding on might net us 450 or 650, doubling might net 800 or 1100. These are high-risk, high-reward scenarios. Doubling and leading our singleton might collect a juicy number, or might pickle partner's J10xx, and lead to -590 or -690. I have no good advice here, but, keep in mind, my loser-approach to total tricks can vastly overestimate the trick number when there are multiple ruffs available. The more power we have shown, the more likely it is that partner will have a quick entry for ruffs. Defending, doubled, will often be the winning decision when we have the balance of power, and a singleton to lead. Bidding on is more attractive when partner is on lead. If you can't get ruffs, however, the total trick number will often be large, and defending a disaster.

I have come to the end of my analysis of total tricks. In the next and final installment, I put these findings to work in a short bidding quiz.

---

[1] This is assuming, again, that we have been active enough in the bidding to help declarer guess partner's holdings, like Qxx or AJx. If we have been eerily quiet in the auction, then declarer will misguess these holdings, and partner's wasted winners will increase to 0.47. Apparently, information is worth a tenth-of-a-trick or so. Of course, we can't judge the total trick potential of a hand without exchanging information, but that exchange will help

declarer guess some critical cards. I like to think of this as the bridge players' Heisenberg Uncertainty Principle: **Determining the total tricks on a hand increases those tricks.**

## Answers to Bidding Quiz

### JULY 17 2021

Q1 – Neither vulnerable

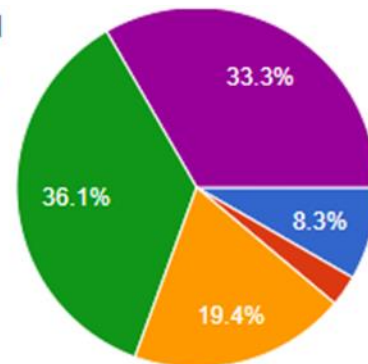

♠ A T 9 ♥ T 6 5 3 ♦ K 9 ♣ A 9 8 5

EAST	SOUTH	WEST	NORTH
2H	Pass	Pass	2S
Pass	?		

#### Question 1

36 responses

- Pass
- 2NT
- 3H
- 3S
- 4S

Otto **4♠** I expect partner to have an opening hand even in the pass out seat. My prime honors should match well with partner's hand.

Bob Fisk **3♥** Show partner that you have a particularly good raise to 3♠. Don't punish them by blasting 4♠, since they might simply be balancing and bidding your values for you. Picture KQxxx Jx QJx Kxxx (i.e., you'll be happy to make three). Partner's shortness in Hearts should make you a bit worried that partner will be tapped (i.e., forced to make repeated ruffs).

Bob Jones **3♥** Give partner some room in case he balanced light. Bid 3♥, showing an invitation, and

respect his decision to stop in 3S if that is what he does.

Joe Muenks **3♥** Epls. Partner can have a large range for her balancing action, particularly with a suit missing the ♠A and ♠T, so cue bid showing support and 10+ pts. in case she's on the chunky 14/15 pt side. If she has long spades and a 10 count 3♠ should make, anyway.

Steve Vogel **4♠** Partner will strive to bid in pass out seat with a marginal hand. Still, with 2 Aces, a King and nothing wasted in hearts, I believe I must raise to game.

Steve Moese **3♠** Partner can ""borrow a King"" from my hand to make the 2♠ overcall in balancing position. This hand has 7-8 losers (depending on how you count them). We "see" 10 Heart cards (6 with the opening bidder and 4 in our hand). We don't know what partner has in hearts (0-3 cards are possible). 3S here is less encouraging than 3♥, and expresses the values of this hand well enough. With any sound hand we expect partner to raise to 4. Here is a link to simple Losing Trick Count. [losingtrickcountHO.pdf](http://losingtrickcountHO.pdf) ([paloaltobridge.org](http://paloaltobridge.org)) The Modern Losing Trick Count makes adjustments. See also the December 2017 Issue of the ACBL Bulletin (you can access it online by going to MyACBL at [December 2017 \[22 - 23\] \(nxtbook.com\)](http://December2017%20-%2023%20nxtbook.com)) Don't be a Loser - The Dangers of Overusing Losing Trick Count by Mel Colchamiro.

Q 2 – North-South vulnerable  
 ♠ A 6 ♥ Q 9 7 6 3 ♦ A 7 ♣ A 9 8 3

NORTH	EAST	SOUTH	WEST
Pass	Pass	1H	Pass
2C	Pass	?	

### Question 2

36 responses

- 2D
- 2H
- 2NT
- 3H
- 4H

Otto **3♥** If partner views his hand as max, we belong in game.

Bob Fisk **4♥** I want to be in game opposite any 3+ card limit raise.

Bob Jones **4♥** Assuming you want to accept this invitation, just bid 4♥. Don't tell the opponents any more about your hand.

Joe Muenks **4♥** Easy peasy lemon squeezy, we have the values for game, an 8-card major and zero chance of slam, so let's just bid it.

Steve Vogel **4♥** My hand is strong enough to accept any invitational raise, but not strong enough to explore a possible slam.

Steve Moese **4♥** No reason to search for another strain nor show our opponents more about our hand. 6 losers plus 8 losers (partner's invite) make 14 losers or 10 winners. Bid game. Lead please.

Q 3 – East-West vulnerable  
 ♠ K 4 ♥ Q J 8 ♦ K 7 5 3 ♣ T 9 7 6

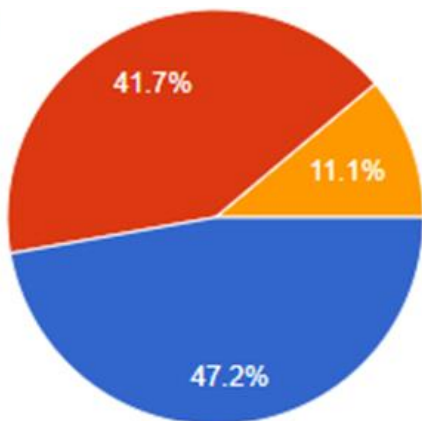

NORTH	EAST	SOUTH	WEST
1NT	P	?	

### Question 3

36 responses

- 2C
- 2NT
- 3NT

Otto **2♣** Another example of why I like 2♣ to be Puppet. If partner should happen to hold a five cards hearts suit, I will bid game there. Otherwise, I will simply rebid 2NT invitational.

Bob Fisk **2♣** My 2♣ bid doesn't guarantee a 4-card major. I'll rebid 2NT over anything partner says.

Bob Jones **2NT** We like this hand, but a balanced 9-point hand without a five-card suit is only worth an invitation. Bid 2NT.

Joe Muenks **2♣** Epls#3, I play 2♣ followed by 2NT shows 8-9 pts and no 4-card major since 2NT shows diamonds. Standard players bid 2NT directly.

Steve Vogel **2♣** Because my partners and I play 4-suit transfers over 1NT, to invite to 2NT, I must start with 2♣. Over any 2-level response from partner, I will rebid 2NT.

Steve Moese **2♣** Because my partners and I play 4-suit transfers over 1NT, to invite to 2NT, I must start with 2♣. Over any 2-level response from partner, I will rebid 2NT.

### Q 4 – Both vulnerable

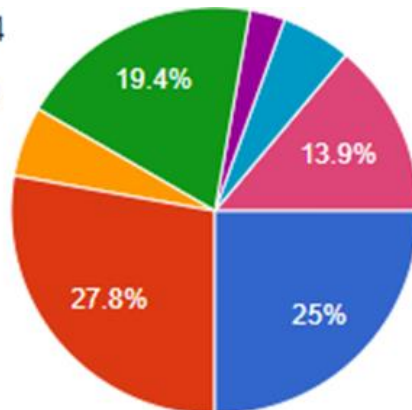

♠ A K 7 6 5 3 ♥ Q 9 8 6 4 ♦ 7 ♣ Q

NORTH	EAST	SOUTH	WEST
1C	Pass	1S	Pass
1NT	Pass	?	

### Question 4

36 responses

- 2D
- 2H
- 2S
- 3H
- 3S
- 4H
- 4S

Otto **2♦** NMF. I need to make a forcing bid so that I can rebid 3♥ over partner's expected 2NT or 3♣ rebid.

Bob Fisk **2♦** (Game-forcing XYZ). We'll play in 4♥ if partner has four Hearts or 4♠ if partner doesn't have four Hearts. EPLS.

Bob Jones **4♥** Partner has shown a balanced 12-14 point hand and you should force to game opposite that. Other routes are possible, but bidding 4♥ now is fine.

Joe Muenks **2♦** XYZ or NMF. This is a game-forcing and slam-interested hand whether you're a point counter or losing trick counter or cliché player (6-5 come alive). The key is to NOT bid some number of hearts now as your next bid will become ambiguous. If partner is lazy and bids 2NT over 2♦ then 3NT over 3♥ you'll miss this slam as partner missed your whole sequence. That's why I say a 3NT bid in power auctions is a slam killer.

Steve Vogel **2♦** I want to be in game with this 5-loser hand. It's just a matter of whether it should be 4♠ or 4♥. I will rebid an artificial 2♦ (XYZ game forcing). If partner's response is 2♥ (showing 4 hearts), I will bid 4♥. Over any other response, I will bid 4♠. With my double shortness in the minors, it is better to play in a 6-2 spade fit than a 5-3 heart fit, as I might get tapped. Yes, there is a remote possibility of slam, but I won't get into that here.

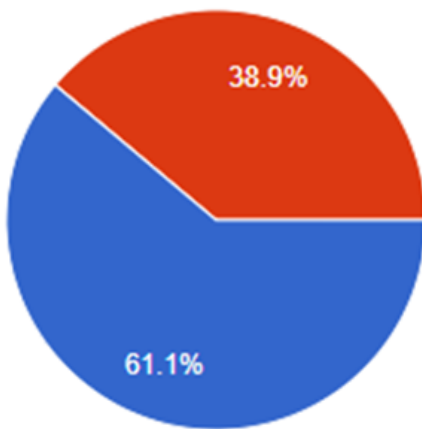

Steve Moese **3♥** Playing XYZ **3♥** shows a 5-5 hand with slam interest. Imagine xx AKxx xx AJxxx opposite - not an unreasonable minimum balanced hand. Even if you play regular New Minor Forcing or Natural over 1NT, **3♥** (GF) shows the playing potential of this hand beautifully. 6-5 Come alive!

Q 5 – East-West vulnerable  
 ♠ Q J 3 ♥ Q ♦ J T 7 6 ♣ J 9 7 5 4

NORTH EAST SOUTH WEST  
 1H X ?

Question 5  
 36 responses

● Pass  
 ● 1NT

Otto **1NT** This is the bid I would have made if East had passed.

Bob Fisk **Pass** What else?

Bob Jones **1NT** When partner's opening bid gets doubled at the one level, just make your normal call if that is at the one level also. Bid 1NT.

Joe Muenks **Pass** I'll wait a round before bidding, which will caution partner that I'm weak. I can use 2NT to takeout to the minors next round if the bidding is 2♠ back to me, which I suspect it will be.

Steve Vogel **Pass** My 2 best options are to pass or bid 1NT. My quacky suggests a pass, awaiting further developments.

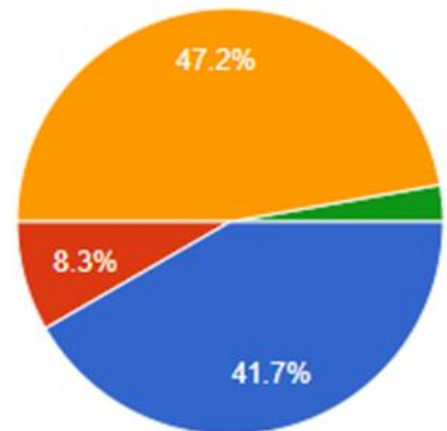

Steve Moese **Pass** I have nothing to say and no reason to speak. My ♥Q is small insurance were partner to play 1♥X.

Q 6 – North-South vulnerable  
 ♠ 5 ♥ K T 5 ♦ Q 8 7 5 3 ♣ K Q J 8

NORTH EAST SOUTH WEST  
 1S 2D ?

Question 6  
 36 responses

● Pass  
 ● Double  
 ● 2NT  
 ● 3NT

Otto **Pass** If partner can reopen with a double, I will pass that for penalty. If partner rebids any suit at the two level instead of double, I will assume he is minimum and without two quick tricks and will pass that rebid,.

Bob Fisk **2NT** I don't particularly want to defend against E/W's 2♦ contract at this vulnerability, so I'll bid 2NT to show (1) fewer than three Spades, (2) fewer than four Hearts, (3) a Diamond stopper, and (4) ruffly 11 points. Nailed it (no regrets). [?FRUFFLY?]

Bob Jones **2NT** A trap pass would appeal at other vulnerabilities. At this vulnerability we would bid 2NT.

Joe Muenks **Pass** I assume you've learned to pass without hesitation in such situations. I play negative doubles so partner must double with short diamonds. Do not lead your singleton spade, as at least 2 trump tricks are likely natural so you need to play yours only when declarer plays theirs to reduce their total tricks. Lead the ♣K.

Steve Vogel **2NT** With better diamond spot cards, I would be tempted to make a trap pass, expecting to convert partner's reopening double to penalty. That still might be best, but I am concerned about giving up on a vulnerable game. I am not thrilled with a 2NT bid, but overall, I believe it is my best call.

Steve Moese **Pass** Pass is the flip side of the negative double. With this diamond holding we can be sure partner will reopen with a double. We will pass stoically for penalties. If partner instead tries 2♠, we can rebid 2NT. We own the balance of power and for now have a misfit. Defending a doubled partial should be more lucrative than trying for a game in NT. (If all bids are honest, West has at most 7 HCP and could have much less).

## How Bridge Things Work

By Steve Moese

To a new person bridge organizations can be very confusing. Even people who played bridge for years might not know the roles and boundaries among among the ACBL, Districts, Units, Clubs and Teachers.

While we are one big happy family (and strive hard to keep it that way for the benefit of our members), there are certain things that continue to confuse.

First and foremost are our bridge clubs. Any member in good standing can own a bridge club, but training and certification are required to run a sanctioned duplicate game. The ACBL charges a fee to club owners for the sanction itself (times and days games of what type will be run), each game they run, and each person that plays in each session.

The Cincinnati Bridge Center is among perhaps 100 or so Unit-owned properties that serve multiple clubs. In our District 11, Louisville is the nearest city with a similar club. Dayton's Unit owns both the space and the bridge club. Lexington is owned by a non-profit and run by its board members.

Our Unit is Unit 124. The articles of incorporation (we are a 501c4 under Ohio NPL) show our business name as the Cincinnati Bridge Association. The unit serves Northern Kentucky and Southwest Ohio. Our primary role is to run tournaments (one Regional, two sectionals, and NLM tournaments that vary year to year). We also own the Cincinnati Bridge Center.

Clubs who operate games at the Cincinnati Bridge Center lease space for specific game times from the CBA. This lease offers many benefits:

- A spacious central location
- 5400+ ft sq space dedicated to bridge
- Permanent tables (up to 55)
- Permanent chairs
- All support materials (table cards, cards, boards, score sheets, convention cards, pencils, coffee, tea, cups, and more)
- Use of two computers and an automatic dealing machine.
- Copy machines, microphones, and a wide screen TV for announcements.
- The Bridge Webs website for posting announcements, schedules, and results.
- No risk rent schedule. If no game is played, no rent is owed to the Unit.
- Plumbed restaurant coffee maker (semi-automatic).
- Separate bridge storage and commodity storage
- Professionally maintained space.

Our members also see several benefits:

- Ample playing area with good indoor lighting and heating/cooling.
- Coat racks and a comfy lounge area.
- Self-managed bridge library
- Convention cards
- Website for results and personal analysis
- Free coffee and tea made from reverse osmosis deionized purified water. Keurig machine.
- Refrigerators (2), sink, and Microwave.
- Teaching Room with computer projectors and white boards.
- Chairs of various shapes and designs to best meet personal preferences.
- Clean restrooms nearby.
- Ample parking with nearby overflow space.

What the Unit does NOT do is direct club owners how to run their games. What games club owners choose to run is up to them. They decide game type, masterpoint limits, stratification, and price. Club owners and not the Unit are responsible for discipline based on behaviors during their club games. Club Managers are granted very wide latitude by the ACBL about how they choose to run their games.

Units also coordinate educational activity and support membership creation and retention activities. However the Unit must not interfere with Teachers' and Clubs' businesses in this area. Simply put, Units must avoid competing with teacher and clubs when it comes to classes and bridge games.

For more on this topic see: [How Unit 124 Works](#) by Potter Orr.

District 11 is one of 12 district (there are 25 in the ACBL) that delegate regional tournaments to the Units. We have 4 Regionals per year: Indianapolis, Cincinnati, Dayton/Columbus (Fairborn), and Louisville/Lexington (Elizabethtown, IN). Since the Units assume all the business risk and effort to run these events, they also retain the income they earn. For the recent past, Unit 124 Cincinnati Bridge Association has run the Cincinnati Bridge Center at a small deficit but very close to breakeven. The onset of Covid-19 and the shut down of face-to-face bridge has hit the Unit's cash reserves but we have enough to continue operations. However we will face a difficult decision in the near future if face-to-face bridge fails to return to a level that supports Unit Income. In past years we could count on \$15-20K or more from the Flying Pig Regional. We are hopeful for the October Regional but do not expect a large income this year.

To ballpark the breakeven point for the CBC, we pay about \$6400 per month for rent, common area costs and utilities. That's \$77K per year. (Actual 2019 financial data shows Total Building Expense at \$20,387 and Total Rents and Expenses at \$ 56,853 or a total of \$77,240). The Unit charges \$15 rent per table played. That means \$77,000/\$15 = 5133 tables. That translates to 103 tables per week for 50 weeks. Here's where the additional games might come from:

- Monday Morning – 22 tables
- Monday Night – 12 tables
- Tuesday Night – 5 tables
- Thursday Morning – 8 tables
- Friday Afternoon - 20 tables
- Saturday Afternoon – 8 tables

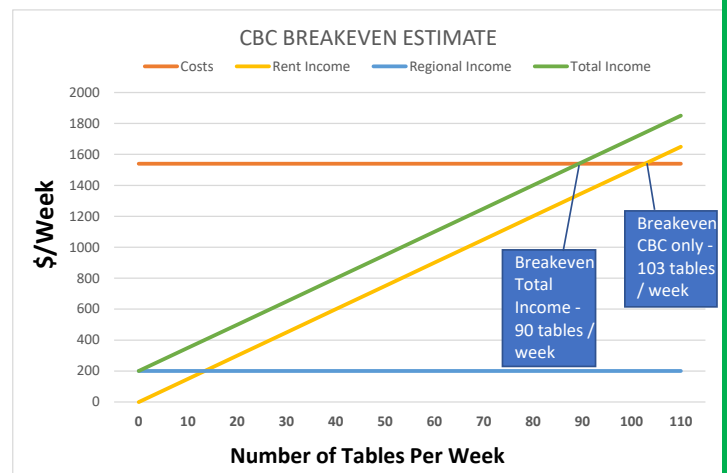

Total estimate: 65 additional tables

We do not yet have a Tuesday morning 10 table game at this time as we did in the past. Nor do we have a 5-10 table Tuesday evening game.

65 + 18 = 83, some 20 tables short of our breakeven. That's a weekly deficit of about \$300 toward overhead cost. We can mitigate some of this through tournaments run at the CBC (but we lose any club tables income from those dates).

That leaves us at a rough \$13-15K deficit annually. Some of this will come from higher rents (\$300 / 83 = \$3.61 per table). This would translate to \$0.91 per person if passed through to the players.

So, if our bridge players come back to a reasonable schedule that approaches but does not match the highpoint of our attendance, we should be able to manage for years to come. If however we fail to get a restorative result, we will not be able to maintain the CBC.

The above estimate assumes \$1500/wk operating costs, \$200/week (\$10K/year income) from the Flying Pig regional and \$15 per table rent income.

This is a rough and unofficial projection for the sake of sharing the importance of returning face-to-face bridge to a full a schedule and broad a participation as possible.

Bring a friend and play as much as you can – that’s how best to support bridge in Cincinnati right now.

**ACBL - NEW BRAND IMAGE**

The Bridge Bulletin Article by Julian Laderman published in June 2016 “The Top Ten Bridge History Myths” includes the number 1 myth that the ACBL developed the Masterpoint System for bridge. In that article, the author shows the merger of the American Bridge League and the United States Bridge Association (no to be confused with today’s United States Bridge Federation) in 1937 and their logos into what we currently enjoy today:

**1**

**The ACBL created the masterpoint system.**

*Reality:* The American Bridge League (ABL) started issuing masterpoints in 1934 so that players could earn points as a qualification system for the league’s top events. The United States Bridge Association (USBA) started issuing its own masterpoints in 1935. Chaos ensued because it was like an economic system in a country with two nontransferable currencies. It became evident that for the good of the game, it was necessary for tournaments run by both organizations to award the same type of points, thereby virtually requiring the leagues to merge. After extensive negotiating/fighting, the ACBL was formed in 1937 by merging the ABL and USBA. So actually the myth is backwards. One can argue that the necessity of having just one masterpoint system created the ACBL. ■

The new logos and symbols are important to refresh ACBL’s image and appeal more directly to newer players who encounter bridge online. Here’s what the ACBL Marketing Department says about the new images:

"As our world slowly returns to its “old normal,” there is no better time to create a fresh look to the ACBL

brand and website that is recognizable, accessible and longstanding.

**The new logo clearly explains who we are and what we do.**

Oftentimes, outsiders confuse us as an organization that designs structural bridges or specializes in the card game spades. By spelling out our name and adding the four card suits, we can minimize confusion among those unfamiliar with the ACBL. The design aspects dually serve as an homage to when the classic game evolved into contract bridge during the art deco era and invite a new group of 21st century players to join our community."

So here are the new images you will begin seeing online and in print (You will notice we have adopted them liberally for our ALERT and our websites).

Micro Seals for use where size makes print too small to read.

**AMERICAN CONTRACT BRIDGE LEAGUE**

— DEALING INFINITE POSSIBILITIES —

This is the primary logo with tagline. Also available without tagline:

**AMERICAN CONTRACT BRIDGE LEAGUE**

The new art clearly draws attention to the card game and eliminates past confusion with collecting tolls, short cuts for cars and trains, and social service groups in your community. Comparing these compelling new icons to our past leaves me excited about the future

This is the primary ACBL SEAL

This is the reverse color version of the primary ACBL SEAL.

The ACBL requires all applications and advertising after August 1, 2021 to use the new art. This includes advertising submitted for tournaments and for teachers looking to obtain Cooperative Advertising funds for their beginners' classes. We should all follow the ACBL General Brand Guide. That guide discusses proper use, sizes, improper use, colors, and fonts to maintain a uniform brand image across the ACBL.

These art changes are a harbinger for a new and improved ACBL website. Much work has been put into improving the user experience by every member regardless of interest. We should expect to see the transition this fall. I can't wait!

[Branding Guide](#)

## The New Kid on the Block

By Steve Moese

You might have seen that there is a **new website** for games at the Cincinnati Bridge Center (CBC). It's true! Following the lead of the **Anderson Bridge Club**

# and the Northern Kentucky Bridge Club

**Welcome to Northern Kentucky Bridge Club**

**NKBC is OPEN for Face-To-Face Bridge**

Our first game was held Tuesday 6/8, and we had 7-1/2 tables in attendance. However, we need you to come fill that half table! There are no masks, no distancing, and no waivers. Anyone may play (vaccinated or not). Just bring your convention card and come, play, and enjoy with us. Play with us Tuesdays and Fridays @ 10:00 AM at the Erlanger Lion's club. Game fee is \$7.

**We've just added Wednesday evenings @ 6:30 PM to our schedule! All Wednesday evening games in July will be Club Championships. Please join us for an evening bit fun!**

**July Schedule of Events**

Not surprisingly, our July Schedule of Events is on the calendar! Please check it out.

In July: **Monday Evenings** are free non-sanctioned ONLINE games (no risk, no reward), it's just for FUN. **Tuesday AMs** are Open Pairs: the 27th is North American Pairs (triple points, 1/2 red and 1/2 black). **Wednesday Evenings** will ALL be Club Championships (double black points). **Friday AMs** are Open Pairs: the 16th is North American Pairs (triple points, 1/2 red and 1/2 black), and the 30th is a 5th week special Pro-Am pairs, USO0+Am. The Pro-Am game is also a Club Championship and ALL pairs are welcome to play. Hope to see you at a game soon.

**Unit 124 July BBO Online Game Schedule**

Let's Play Online!  
Even though we are playing face-to-face, we are still playing on BBO too!

Unit 124 July Virtual Club games:  
NKBC/Anderson/Cincinnati

Day/Time	Type	Director
Mon @ 2:00pm	USO	Pam
Mon @ 6:30pm	FUN	John

Deck of Cards photo by a Q  
FUN games - free, non-sanctioned, just for fun. There are no awards. Find these games in Competitive->Free Tournaments.

# The existing Unit 124 website:

Home Page for Unit 124 website. Navigation menu includes: Join Now!, My CBA, Learn, Play, Results, Milestones, Tournaments, CBA Board. Main content area features announcements for Cincinnati Bridge Association, NABPC, and CINCINNATI FLYING MG REGIONAL. A 'NEWS' section includes a welcome message for a new member and a congratulatory message for members with promotions. A 'FACE-TO-FACE BRIDGE AT THE CBA AND NKBC!' banner is also present.

will continue to provide you information about the Unit activities and the ACBL.

The new CBC website allows club owners (also known formally by the name of the ACBL as sanction holders) to communicate with players directly. By eliminating the "middle man" (the Unit Website), the club owners can maintain their own game schedules, manage special game announcements, send emails to CBC players, and provide timely results reporting online (in addition to ACBL LIVE4CLUBS). There are many more advanced features that players will enjoy. We will review a few of them here.

who have used this service for years. We have created a bridge webs site for the CLUBS that play at the Cincinnati Bridge Center.

# CALENDAR PAGES – GAME SCHEDULES

Let's now take a look at the calendar pages in more detail. First the list calendar:

Notice that the left column (NEWS and MENU) is present on this page. Each Blue Bar represents a MONTH. The list within each month shows the games by date and sequence in a day when more than one game is played on a day. Here's a close look:

### Calendar of Forthcoming Events

This page shows the full list of forthcoming events, together with other events of interest.

#### July 2021

**Travelers** – Shows all board in traveler or score list form:

The screenshot displays three boards from the game. Each board shows the cards held by North and South, the dealer's position, and the score. Below the cards, there are buttons for 'Dir: North', 'Dir: East', and 'Dir: South'. The interface is designed for easy navigation and viewing of individual hands.

**Hands** – Allows you to choose one of several formats for viewing the hand records for the game:

You can view and print in a format of your choice. Or, if you have PC software that allows you to replay hands and it supports PBN format, then download or send yourself a copy of the Hand File and use in suitable PC Application.

- Show in this page
  - View in 3x4 PDF format
  - View in 4x5 PDF format
  - View in 5x6 PDF format
  - View in 3x4 HTML format
  - View in 4x5 HTML format
  - Download as pbn format file
  - Download as lin format file
  - Enter email:
- File format:  Original  With Scores  LIN

For example – “show in this page” returns a browser page with the hand records.

	Voids	Singletons	2	3	4	5	6	7	Balanced	HCP
North		9	25	31	22	15	6		12	10.74
East	1	6	25	33	25	13	4	1	16	9.67
South		11	26	25	26	13	5	2	10	11.19
West	2	10	17	34	25	16	3	1	13	8.41

You can see there are many more ways to review your hands with partner, and check your results for a given game.

Let’s go back to the game results page:

If you click on your pair’s name in the Players column:

Pos	No	Players	Section Rank	O
<b>North / South</b>				
1	6	Kay Mulford & Bill Coombs	A 1	3
2	7	Howard Ringel & Nancy Luetge	A 2	4
3	9	Cliff Pleatman & Stephen Vogel	A 3	5
4	8	Mike Ma & Stephen Moese	A 4	
5	2	Frances Hamilton & Elaine Rothstein	C 1 1	
6	3	Barbara Levinson & Cordell Coy	A	
7	4	Cecilia Kloecker & Terry Barrett	C 2	

You get the following information →

“You are never too old to start over. Every day is a chance to make changes to create the life we want.”  
— Karon Waddell

“Today is a BRAND NEW day—a perfectly good reason to get up and start over. Never give up.”  
— Richelle E. Goodrich

“The direction you choose to face determines whether you're standing at the end or the beginning of a road.”  
— Richelle E. Goodrich

“The beginning is always today.”  
— Mary Shelley

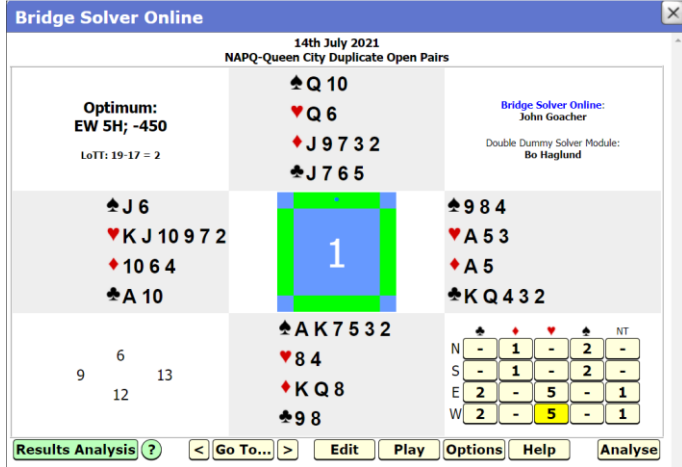

**Board No 1 None Vul Dealer North**

				5 13
				6 5
				7 2

If you upload a portrait photo to this website, it will appear on the scoresheet so members will get to know you. The left side lists each board and the pair you played against as well as the contract, result and score (matchpoints or IMPs). Note the color coding for your score. Green is top and red is bottom with light green, yellow and amber showing quintiles for easy scanning. You can for example find the boards in red and select them on the right side so you can see the whole hand. There’s more! If you want to see what the best play is and what contracts make in each direction), there is a tool for that too. The hand diagram shows the high card points for all 4 hands and the double dummy contracts that can be made. If you hover your cursor over any one hand it provides much more detail:

12 H.C.P.  
2 Length Points  
2 Shortage Points  
Support Points  
4 Controls  
3 Quick Tricks  
6 Losers

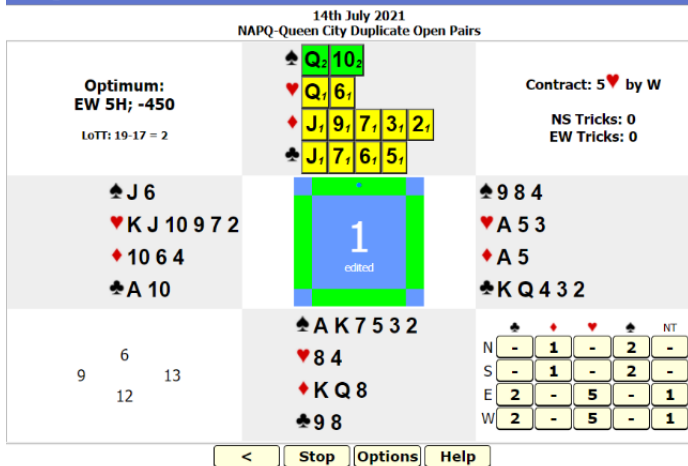

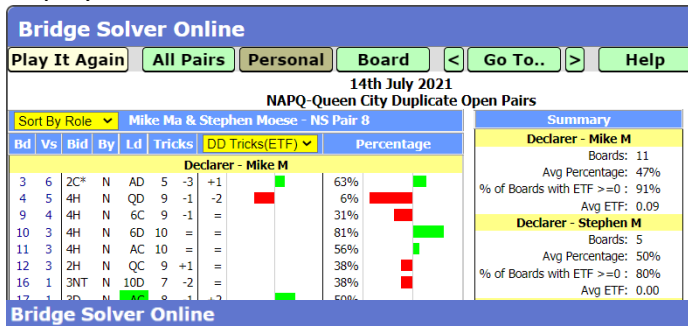

And there's real magic in the "Play It Again" Button. When you click that button, the software invokes the built in Bridge Solver Online Software for analyzing hands and replaying them to explore different strategies. The software will always show you the double dummy best cards to play from each hand for each trick. If the game was online, all 13 tricks replay.

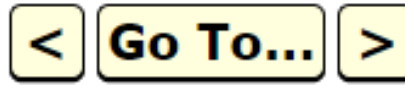

Let's review what each button at the bottom of the page means:

**Results Analysis** ?

Results analysis leads to the following display:

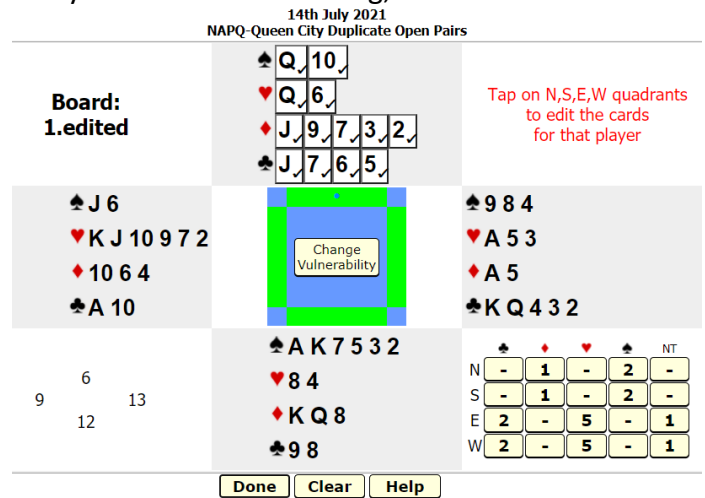

The best explanation for this screen can be found at the ? icon. There is much detail and we recommend that you take the time to read it if you are interested in analyzing your game.

Navigates from board to board without leaving the analysis screen.

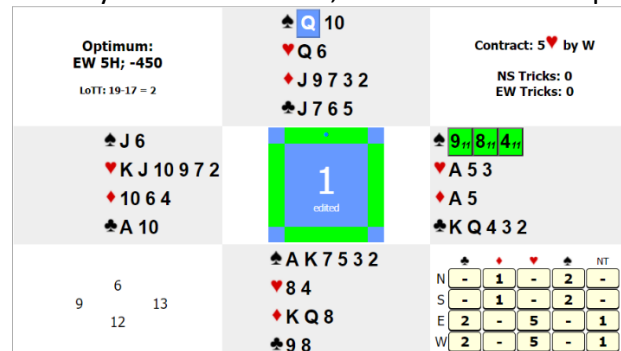

Allows you to change cards in the hands for further analysis and scenario testing;

Allows you to replay the hand card by card (it is not automatic and does not replay the hand as originally played). You pick a direction and a contract from the double dummy table and begin play card by card as you see fit. The software will flag good cards and bad card for your side.

Here the green highlighted cards are good for defense, and the yellow cards give up something. When you choose a lead, the next hand is in play:

While it might be hard to see them, there are subscripts that show the expected number of tricks to be taken by declarer given that choice of card!

## Options

Allow us to choose our display preferences. Try them out!

N/S Playable Card Display:

Subscripts and Colours

Colours Only

No Subscripts or Colours

E/W Playable Card Display:

Subscripts and Colours

Colours Only

No Subscripts or Colours

Makeable Contracts Table:

Show makeable contracts

Show number of tricks

Close Save As Default

## Help

Brings up:

Click on a green or yellow card to play the card.

A card value preceded by a blue asterisk indicates the lead card that was actually played by the defender on lead in the selected contract.

The subscript on the green and yellow cards shows the number of tricks that will be made, by declarer or the defenders, if this card is played and all subsequent cards played by declarer and the defenders are green cards.

Cards highlighted in blue are cards already played as part of the current trick.

Cards which are greyed out have been played as part of a previous trick.

The button marked with a '<' can be used to unplay one or more cards.

Click on 'Stop' to leave play mode.

CLOSE

## Analyse

Provides the optimum contract when you first bring up the tool.

## Side Note:

The Bridge Solver is a wonderful tool for analyzing any one bridge hand that you can see in a browser (as long as it is NOT in a picture format). It works on BBO hands displayed as movies, hands from any bridge webs site, and any handviewer hands shown by popular bridge sites. You can add this tool to your browser so you can use it anywhere! Here is the link to the website for your pleasure:

<https://mirgo2.co.uk/bridgesolver/>

If you want to compare your score card with that of another pair you can do so (works better on a computer with a bigger screen) Click on the grey "Compare" button to get a second column. Select the pair you want and compare:

And there's more!

# MEMBERS PAGES

Let's explore the Members area of the website. This is accessed from the Members button on the left-side button menu on the home page.

That brings up the following screen:

The center panel has the sign in box for your name and password. The very first time you sign in to this website you have this step:

If you would like to register to use the "Members Only" pages of Cincinnati Bridge Center, click [Register].

Then follow the registration instructions. This registration step sets up secure access to this site for members who have played at the CBC.

Hello Stephen Moese. Welcome to the Members Only pages of Cincinnati Bridge Center -----  
> Log Off

If this is the first time that you have used the "Members Only", click [Set/Reset Password].

Finally for all registered members:

If you have already registered as a member to use "Members Only" pages of Cincinnati Bridge Center then enter your Email or Name and Password and click [Login].

If you use the same email as someone else at the club, then enter your Name as spelt in the results instead of Email.

If this is the first time that you have used the "Members Only", click [Set/Reset Password].

If you have forgotten your password, click [Set/Reset Password].

If you would like to register to use the "Members Only" pages of Cincinnati Bridge Center, click [Register].

*Please note: Registering on this site is something every individual must do for themselves.* The Club Owner or the Director cannot do it for you. That is so access remains secure and your password is protected.

On entering the secure member's area, we see 6 tabs across the top of the page:

**Find a Partner** – Provides a place to indicate to other players the dates you have open on your calendar to play. Requires other players register and use this application to find a partner.

**Messages** – Leave/receive public messages to other registered players.

New Message

## Personal Analysis – Get an analysis of recent games at the CBC. Players have to have played 10 or more times to be analyzed:

### Personal Summary

Players will be included if they have played 10 or more times since the beginning of 2020 and are registered members of the club.

## DID YOU KNOW?

The ALERT is the Quarterly Unit 124 Newsletter published by our members for our members. If you have a question about any bridge related topic, a suggestion for improving the ALERT or your bridge experience, or want to publish an article of interest to area bridge players, all you have to do is contact

Steve Moese at [moesefamily@aol.com](mailto:moesefamily@aol.com)

I promise to respond personally to every query and get your input to the appropriate club owner or board member.

You can personalize this newsletter by providing bridge related stories and pictures of our members having fun at the game!

**Member List** – Shows a list of members who play at the CBC and their contact information – a CBC player directory!

Cincinnati Bridge Center - Useful Links

This page specifically contains links to other sites or pages of interest to members. Click on the header to take you to the site or page.

<b>CBA</b>	 ACBL UNIT 124 Website - Rich with content for all players in the Cincinnati-Northern Kentucky area.
<b>Northern Kentucky Bridge Club</b>	 Club meets week days. Morning and evening games available. Call the director for a partner.
<b>Anderson Bridge Club</b>	Club meets Tuesday and Wednesday Mornings. Click for schedule and information about finding a partner.
<b>District 11</b>	 District 11 site with tournament and District News for all members.
<b>ACBL</b>	 The official American Contract Bridge League site.
<b>BridgeWinners</b>	 Bridge Winners connects bridge players from around the world through our social network and provides a venue to learn, share, and talk about the game we love. Bridge Winners also offers daily articles, tournament reports, an online convention card editor, and player profiles. For many of us, being a bridge player is more than just a casual hobby, it envelops our lives. You don't need to be obsessed with bridge to enjoy Bridge Winners, but if you are we've got you covered too. We encourage our users to actively participate in the community and share their passion by joining the discussions, posting interesting bridge problems, or writing a blog. We are always interested in your ideas and feedback, so please don't hesitate to let us know if there is something missing in your online bridge life.

## CBC CLUBS PAGES

The **CBC CLUBS** button on the Left Menu provides details and contact information about clubs at the CBC and their owners. There are links to send emails, and to go to the club's LIVE4CLUBS results page on the ACBL website:

### Details of Clubs

The Cincinnati Bridge Center is dedicated to all things Bridge. Unit 124 (Cincinnati Bridge Association) leases the space to each sanction holder (the club owner). They run their games independently. We are proud of our facility and how it serves the bridge interests of our members. We are known for hosting club games, bridge classes, come and play rubber bridge, supervised play, tournaments, and major District-wide events at our facility. We hope you enjoy playing at the CBC!

### Cincinnati Bridge Center - Web Administration

This web site is using the "BridgeWebs" service.

You will need to use the Bridgewebs "Web Administration" to update your web site.

You can use the button below. This will open up in a new "Tab" where you can login and administer the "Cincinnati Bridge Center" web site. You will then have two Tabs open, this one for your web site and another for Administration. You can switch between the two quickly to see the effects of your changes.

[Web Administration Login](#)

Alternatively ( **and recommended** ), you can click on the  above the menu to quickly toggle between the web site and Web Administration.

You can use the  above the menu to print any page without the Banner and Menu.

Please use the  you will find around the pages to go to help on a particular topic.

Please use the  above the menu to see details of the "Latest Enhancements" in the Release Notes.

If you have any comments about the software, please use the "Web Administration Login" and then use the "Administration Support Request" option.

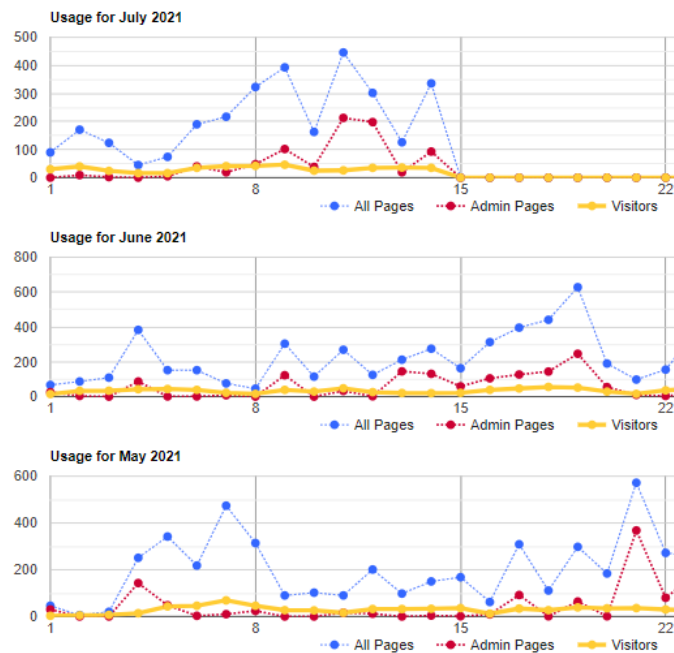

These are not available to members or visitors.

BridgeWebs has worked closely with the ACBL LIVE4CLUBS system. BridgeWebs offers club owners the ability to automate results for games as they load them to ACBL LIVE4CLUBS. This means results will always match between the two systems, and will always show the official Masterpoint awards.

If you are impressed by the wealth of tools and information available, you are joining a growing crowd of pleased users.

The Unit has decided to test this website for the CBC, confident that the service provider (BridgeWebs) has supported thousands of clubs worldwide. The cost is based on the number of tables per year, and will never exceed \$210 per year or so – that’s a maximum of \$18 per month. Our actual cost will be lower as we are not yet at 100 tables per week (5200 tables per year). The Unit is absorbing the cost and offering the website to all Club Managers who own games with a lease at the CBC. We hope all CBC members enjoy the new website.

## Parting Notes

Potter Orr deserves all the credit for having created the software and process for posting results to the CBA Website since 2010. For 10 years Potter programmed each year, and club owners used Potter’s software to publish game results in minutes after the game. In 2018 the ACBL introduced **ACBL LIVE** for reporting tournament results to players on their website; That followed about one year later with the arrival of **ACBL LIVE4CLUBS** where each sanctioned club could report results. At the same time the ACBL developed a new Masterpoint Engine that would accurately assign masterpoints for all club and tournament games. It is important to understand that the old DOS software called ACBLScore reached its limits several years ago as the rules for awarding masterpoints became more and more complex. The old software underpinning ACBLScore could not keep up with the rules and algorithms of awarding masterpoints. That’s why the ACBL developed to ACBL LIVE and LIVE4CLUBS and developed the Masterpoint Engine. Together these applications take inputs (results) from tournament and club games and issue accurate masterpoint awards in real time. A good example of this was how the ACBL handled masterpoint awards for Virtual Club Games on BBO. BBO could not easily program their masterpoint code, so the ACBL took the game result files and assigned masterpoints using their engine and reported the real results through ACBL LIVE4CLUBS. BBO was never able to record the actual masterpoint awards for these game.

The future for reporting bridge results will allow many different club game management systems to run games (not just ACBLScore). The working idea is for the ACBL to require a fixed set of data standards for reporting game results, and allowing any software that uses them to report data to LIVE4CLUBS. This is a great improvement and will foster much needed innovation. ACBLScore is a DOS based software that was developed in a now obsolete computer language. In addition to designing games, recording players and results, and regarding masterpoints, the software also used to manage the financial transactions between club owners and the ACBL. Club owners pay table fees

based on game type. This include \$0.25 per person per session. A few years back the ACBL moved to an online reporting system that allows payment by credit card. We can expect transactions with the ACBL to continue to move online and improve as new applications arrive.

Nevertheless we should thank Potter Orr for his prescience and contributions that brought the CBA into online results reporting two decades before the ACBL. Our "old" results reports remain on the CBA Website. We will not move them to the new CBC website. We trust that our members and CBC players will find the new website to their liking once they get used to all the benefits of the new site.

While the new website means that club owners will be doing more of their scheduling and game promotion work, all are pleased to have personal (shared) control over their own content.

Our Unit is pleased to move to a future that is fit for use and consistent with the direction that the ACBL will follow. This means we are ready for a sound bridge future with reliable technology serving our many members.

## SAVE THE DATES

**AUG 31** – Last day to Qualify for the 2021-22 D11 NAP Finals

**Oct 1** – Nomination forms due for Board of Directors Election

**Oct 3-7** – Flying Pig Regional Tournament

**Oct 16-17** – D11 NAP Finals at the CBC

**Oct 28-30** – Spooktacular Sectional at the CBC

**Oct 28-30** – Unit 124 Board of Directors Elections

One day before this ALERT went to press, the ACBL announced that they are taking the extraordinary step of canceling all face-to-face Tournament sanctions in the month of August 2021 due to the threat from the Covid-19 delta variant. The future remains uncertain. Please STAY SAFE and attend to the official tournament schedule on the ACBL website:

<http://tournaments.acbl.org/>

as you make your tournament plans. The ACBL will reassess September Tournaments by August 16, 2021.

## Tournament FAQ

**Q:** What are the mask and COVID vaccination requirements?

**A:** Conditions will be depend on state, local and ACBL health policies at the time of the tournament. Be advised that masks and/or proof of vaccinations may be required. In addition, the schedule is subject to change depending on the number of players. Please check the CBA web site at [cincybridge.com](http://cincybridge.com) for up-to-date information.

**Q:** Will you have hospitality this year?

**A:** Unfortunately, the uncertain health policies and conditions will preclude our terrific hospitality program for our first Regional back. We hope to provide safe and scrumptious treats again when we return in June 2022.

**Q:** Why didn't you schedule any Knockouts?

**A:** We wanted to run a "dip-your-toe-in-the-pool" Regional in our District in 2021 to welcome our players back from the hiatus. In addition, professional teams, who anchor the KOs, will be attending the USBF trials the whole month of October. We've scheduled Swiss Teams on Monday and Thursday.

**Q:** Will everyone really get a t-shirt?

**A:** Yes! It's our way of welcoming you back to Cincinnati and tournament bridge. Sizes will be limited, so make sure to register when you arrive!
